Current role	Founder at Fasto
Experience	eCommerce
Technologies	React, MongoDB, Docker, Kubernetes, GraphQL, Node.js, Next.js, Git, TypeScript, React Native, iOS, Android, Swift, Firebase, Fastlane, REST API, SQL, JavaScript, Ruby on Rails, JSON, Figma, Jenkins, Je…

Work experience

Founder, Fasto 🌀   Jan 2023 – Present (1y 4m)

React   MongoDB   Docker   Kubernetes   GraphQL   Node.js   Next.js   Git

- Led end-to-end product development process from ideation to engineering.
- Managed cross-functional team to achieve collaborative success.
- Devised sales strategies and utilized user feedback to boost retention and sales.

React Native Engineer, Stadium Goods 🏢   Sep 2021 – Jan 2023 (1y 4m)

iOS and Android App for Luxury Fashion Direct-to-Consumer eCommerce

TypeScript   React Native   iOS   Android   Swift   Firebase   Fastlane   REST API

- Collaborated with Product Managers to translate identified features into clearly defined user stories.
- Deployed and integrated software for iOS and Android platforms.
- Integrated data analytic APIs for bug reports, user tracking analyses, and AI recommendation tools.
- Ensured high test coverage across the codebase by implementing and maintaining Jest tests.

Lead Instructor, TrainUp – USA 🏢   Jan 2020 – Sep 2022 (2y 8m)

SQL   React   TypeScript   JavaScript   Node.js   Git   Ruby on Rails   JSON

- Developed and implemented 40+ hours of instruction on React, Javascript, ES6, React Hooks, and Redux for 15 US Air Force Software Engineers.
- Evaluated student progress and provided guidance to advance Junior Engineers to Senior level.
- Delivered 36+ hours of content on Git, GitHub, JSON, Javascript, and RESTful APIs for US Patent and Trademark engineers.

UX–UI Engineer, Mean Guppy – Verizon 🏢   Mar 2020 – Aug 2021 (1y 5m)

React   JavaScript   Figma   Jenkins   Jest   Yarn   Git   Asana

- Delivered next-generation customer experience (CX) platforms for all Verizon business units.
- Contributed significantly to the development of Verizon's widely used UI component by various teams.
- Played a key role in creating and updating Verizon's Design System documentation website in Q1 2021.

Education

Flatiron School   Jan 2019 – Dec 2019 (11m)

Software Engineering Bootcamp
- Completed comprehensive Fullstack Bootcamp Course covering backend development with Ruby-on-Rails, SQL fundamentals, and frontend development using HTML5, CSS3, JavaScript, and frameworks like React, culminating in hands-on projects and real-world applications

Universidade Cidade de São Paulo   Jan 2012 – Dec 2015 (3y 11m)

Bachelor's Degree Sports and Science- with emphasis on statistics
- Anatomy, physiology, biomechanics, nutrition, psychology, and exercise science, gaining a comprehensive understanding of the human body and its capabilities in relation to physical activity and athletic performance
- Comprehensive exploration of statistical theory and practical applications.
- In-depth study of probability theory, regression analysis, experimental design, and statistical computing.
